

## Coded Ringing . . .

Four numbers and distinctive rings  
on your single party line.

If your teenagers are clamoring  
for their own phone, this is the  
answer. With coded ringing up to  
4 people in your household can  
have their own number.

And when a call comes in to one  
of the numbers, the telephone  
rings with a pattern unique to that  
number.

Whats more, call waiting tone  
follows the ring pattern assigned  
to each number, so you know  
that the call waiting is not for you.

Great for small business too !
